Result oriented Salesforce Developer with over 2 years and 8 months of experience seeking to utilise the best of his abilities to deliver high quality results to any organisation he works for.

Experience

○ 03/2022 - Present

Deloitte India | Gurugram, India

Salesforce Consultant

- Worked with a leading European automotive client to implement requirements on Salesforce **Sales Cloud** and **Experience cloud** following **Agile Methodology**.
- Assisted clients through **design, development, deployment** and **testing** of Salesforce applications involving **configuration** and **customisation** on the Force.com platform.
- Extensively worked on **Apex Classes, Apex Triggers, Asynchronous Apex (Batch, Queueable, Future, Schedulable), Lightning Web Components** and **Salesforce Admin**.
- Reasonable working knowledge on **Platform Events** and **Salesforce Flows**.
- Implemented, **chained** and **scheduled Batch jobs** to process bulk data in the system depending on the requirements.
- Created **REST webservices** to be utilized by Mobile Application team to **fetch and update** data inside Salesforce **Database**.
- **Integrated** Salesforce with several external systems involving **REST API** callouts.
- Created **complex** and to some extent **generic** Lightning Web Components from scratch and worked on enhancements and bug fixes in **Aura Components**.
- **Migrated** pre built Aura Components to **LWC** ensuring **best practices** to make the application future proof.
- **Configured** and **customised Digital Experience Sites** and managed **guest user** access on the portal.
- **Deployed** and **Maintained** code through **Copado deployment** tool, **SFDX** and **GitHub repository**.
- Actively participated in **design discussions** and provided **suggestions** and **solutions** to client requirements.

○ 10/2020 - 03/2022

Accenture Technology | Bengaluru, India

Associate Salesforce Developer

- Worked with a leading **Beverage and Brewing company** based out of USA to implement requirements on **Sales Cloud** and **Experience Cloud** following **Scaled Agile Framework (SAFe)**.
- Created various **Custom Objects, Custom Fields, Page layouts, Custom applications** on the Salesforce Platform.
- Created and updated **profiles, permission sets** and **security model**.
- Integrated Salesforce with a **third party IBM Identity and Access Management System** to **control access** and **manage entitlements** to different external applications linked to the **Partner portal**.
- Worked on LWC to mass edit **Opportunity Products** linked to particular **opportunity** thereby **reducing significant number of back and forth clicks**.
- Actively supported application by handling incoming **Production issues** and **incidents** by resolving them under strict **SLAs**.

Certifications

- Salesforce Certified Platform Developer 1
- Salesforce Certified App Builder
- Salesforce Certified Administrator
- Salesforce Certified Associate
